WERE MET BY THE ENEMY

FATE OF THE PORT ARTHUR SQUADRON.

A Number of the Vessels Known to Have Escaped—Some Return to Harbor—Much Depends on the Outcome.

St. Petersburg, Aug. 12.—Everything else from a military standpoint seems to be forgotten in general anxiety concerning the fate of the Port Arthur squadron. Future plans of the admiralty hang upon preservation of the bulk of the squadron and it is not too much to say the present is regarded as being the most critical moment of the war. At noon the admiralty declared it was without official advice as to the whereabouts of the squadron, but private advice seems to show it may have been in communication with Russia after passing Shan Tung promontory. Hope is high the squadron has successfully broken through the Japanese ships and is now steaming for Vladivostok. Departure of the squadron in the face of a superior fleet is commended by all classes.

The emperor received a dispatch from Viceroy Alexieff, dated the 11th, saying the Port Arthur squadron put to sea the 10th with the steamer Mongolia. Three first-class Japanese cruisers, eight small cruisers and seventeen torpedo boats were on the horizon. The port has been bombarded with siege guns for the past four days.

Action of Japanese torpedo boat destroyers in attacking and towing out the defenseless Russian torpedo boat destroyer Ryshchikoff at Chefoo is regarded in diplomatic circles as being a very grave matter for Japan. As soon as the facts are officially established no doubt exists Russia will promptly call attention of the powers to this breach of neutrality of China.

The Associated Press is able to announce Russia has already formally protested to Japan through France against the acts of the Japanese torpedo boat destroyers at Chefoo. The protest has been communicated to the powers.

Chefoo, Aug. 12.—Seventeen of the crew, numbering forty-seven, of the Russian torpedo destroyer Ryshchikoff, who jumped overboard during the fight between the Ryshchikoff and two Japanese torpedo boat destroyers early to day, have been accounted for. It is reported Captain Shestakovsky was killed. The Japanese claim they sent a lieutenant and interpreter under a flag of truce aboard the Ryshchikoff, who demanded the Russians come outside and fight. The Russian captain replied the ship had been disarmed and the whole matter was in the hands of the Chinese. The interpreter claims he overheard the Russian captain give an unmistakable order in a low tone and immediately the captain seized the Japanese lieutenant and jumped overboard with him. Fighting began immediately and lasted ten minutes.

The German cruiser Furst Bismarck left hurriedly to day for Tsing Chou. The captain and twenty of the crew of the Ryshchikoff were saved by boats from a Chinese cruiser. The captain was wounded in the leg by a bullet.

Undoubted authority confirms reports the Russian cruisers Novik and Askold and battleship of the Carevitch type, the latter in an unseaworthy condition, have arrived at Tsing Chou. The cruisers and torpedo destroyers are talking coal on board. One cruiser and torpedo boat destroyer are now nearing Shanghai and there are indications the remainder of the Russian squadron has returned to Port Arthur. The Japanese are guarding all points.

Tokio, Aug. 12.—Togo reports the Russian battleship Carevitch was probably sunk Aug. 10. The Russian squadron emerged from Port Arthur and was attacked by the Japanese fleet south of Kentao and dispersed. The Askold, Novik, another cruiser and destroyer took refuge at Kiao Chou. Another destroyer took refuge at Chefoo. On the 11th five Russian battleships, a cruiser probably the Diana, hospital ship and several torpedo boat destroyers were seen to regain Port Arthur.

Shanghai, Aug. 12.—A Russian torpedo boat destroyer arrived here to day and reported four Russian battleships are off Saddle Island, seventy miles southeast of Shanghai and fifty-five miles from Port Arthur.

London, Aug. 12.—British officials and foreign diplomats regard the action in cutting out the Ryshchikoff at Chefoo as raising a serious question of importance to all nations.

Shanghai, Aug. 12.—The Russian cruiser Askold arrived at Woosung to day and the fifth funnel gone close to the deck, all funnels riddled with holes, one gun on the port side dismounted and several large shell holes above the water line. One lieutenant and eleven men had been killed and fifty men wounded.

Tokio, Aug. 12.—Admiral Togo has reported as follows: "On Aug. 10 our combined fleet attacked the enemy's fleet near Gusan rock. The Russian vessels were emerging from Port Arthur, trying to go south. We pursued

the enemy to the eastward. Severe fighting lasted from 1 o'clock Wednesday afternoon until sundown. Toward the close the enemy's fire weakened, remarkably his formation became confused and then his ships scattered. The Russian cruisers Askold and Novik and several torpedo boat destroyers fled to the southward. Other of the enemy's ships retreated separately toward Port Arthur. We pursued them and it appears that we inflicted considerable damage. We found life buoys and other articles belonging to the Russian battleship Carevitch floating at sea. The Carevitch probably was sunk. We have received no reports from torpedo boats and torpedo boat destroyers, which were engaging in the attack on ships of the enemy. The Russian vessels, with exception of the Askold, Novik, Carevitch and cruiser Pallada, appear to have returned to Port Arthur. Our damage was slight. Our fighting power has not been impaired."

Casualties of the Japanese navy during the fight Wednesday were 170. Chicago, Aug. 12.—The Chicago Daily News' Chefoo correspondent says: "There is no doubt that the Russian destroyer was in the hands of Chinese authorities. Mr. Hagerty of the Associated Press, with an interpreter, was on board the Ryshchikoff and witnessed negotiations. He has documents recording the conversation of a Chinese officer with the Russian captain conducted through his interpreter."

London, Aug. 12.—According to the Shipping Gazette, Japan has just ordered two large battleships of twenty-three knots from Vickers, Maxim & Armstrong. In addition to a battleship already building there.

St. Petersburg, Aug. 12.—It is reported that France and Germany are supporting at Peking the protest of Russia against the action of the Japanese in attacking the Russian torpedo boat destroyer Ryshchikoff in the harbor of Chefoo.

Chefoo, Aug. 12.—It was learned to day that four Russian sailors were carried away on the Ryshchikoff. A junk which left Port Arthur Aug. 8 confirms previous reports of severe fighting day and night. One Japanese shell struck the corner of a building in Port Arthur and killed or wounded 200 persons. Fifteen six-inch shells fell at one spot on the water front in one day, but hurt no one. It is roughly estimated that the Japanese are five to eight miles from Port Arthur.

Chefoo, Aug. 12.—A late report from Tsing Chou says the Russian warships still there are the battleship Carevitch, cruisers Pallada and Novik and three destroyers. The Carevitch, which is badly damaged, is being repaired with German assistance, it is alleged. A report has been received that Admiral Witthoff was killed in the naval battle off Round Island Wednesday.

A strong detachment of Japanese warships is reported to have sailed south to intercept the Vladivostok fleet, which, it is believed, has not effected a junction with the vessels reported to have been purchased by Russia from Argentina.

IN GERMAN PORT

Russian and Japanese Warships Infringe on Neutral Territory.

Berlin, Aug. 12.—The foreign office to day sent instructions to the German authorities at Tsing Chou to the effect the cruiser Novik and torpedo boat must leave the harbor within twenty-four hours. Tsing Chou, at the entrance of Kiao Chou bay, is a German concession on Shan Tung peninsula.

The government's instructions, although explicit in that the Novik and torpedo boat must leave Tsing Chou within twenty-four hours, do not, it is understood, provide for possible refusal of the Russian vessels to leave that port. The Carevitch, being unseaworthy, must naturally remain in the harbor. The foreign office probably will take no further action until Admiral von Frobenitz arrives at Kiao Chou and reports the situation. Chancellor von Bülow, who came to Berlin to see the emperor yesterday, returned to Norddeutsche Island to day, where he is spending his vacation. This is interpreted to mean he does not regard arrival of Russian warships at Kiao Chou as being a serious incident.

Vice Admiral von Frobenitz, commanding the German East Asiatic squadron, telegraphed he sailed to day from Chefoo on board the armored cruiser Furst Bismarck for Tsing Chou. The German cruiser Seeadler has sailed from Ching Wantao for Tsing Chou.

WILL LEAVE FOR ENGLAND. New York, Aug. 12.—It was officially announced to day that Commander Booth Tucker, of the Salvation army, will leave the United States about the middle of November. Announcement will be made later regarding the commander's successor and his future appointment.

SAID HE WAS POISONED. Dos Molinos, Aug. 12.—Wm. Field Carpenter died at Iowa City to day. According to his dying statement there was poison in the coffee which he drank while eating lunch. The coffee will be analyzed. Carpenter recently figured in a law suit in which his wife was a witness against him.

WEEKLY TRADE REVIEW

BRADSTREET AND DUN'S SUMMARY.

Jobbing Trade About Up to Expectations and Expanding—Better Prices May Be Realized for Farm Products.

New York, Aug. 12.—Bradstreet's review of trade says: Fall trade expands but slowly, conservatism based apparently upon crop disappointments or uncertainties and labor troubles, ruling most lines of distribution. Government figures of crop conditions just issued are, in the main, favorable, though vitiated by early date of replies. Predicted reductions in the winter wheat crop output are confirmed, but are counterbalanced by improvement in other crops pointing to a general yield of food products well above the average. Jobbing trade the country over, while perhaps up to expectations, is not equal to last year's. Bank clearings continue to run behind, but railway earnings promise rather better than earlier expected, as indicated by decrease of only 1.4 per cent in gross for roads reporting for July. Industrial conditions are not altogether pleasing in view of continuance of the meat strike, which, by the way, is interfering with the leather and shoe trade, the Fall River difficulty and calling out of large numbers of building hands at the metropolises. Price movement this week shows exceptional strength, continuing upward movement noted during July, and higher prices of farm products are regarded as a possible offset to smaller yield, but it is to be noted that export trade in food staples in July fell to the lowest point in many years. All in all, the situation may be characterized as still irregular, though general tone of business and outlook are one of confidence. Production of pig iron apparently fell to the minimum in July, while stocks showed a slight increase. Reports of cuts in prices of finished steel products are current, but good reports come from structural trade. The coal trade is in an interesting condition. Demand for domestic grades of anthracite has fallen off, but that branch of trade is rather quiet, but prices are firm. Bituminous coal is selling at very low prices, but stocks pressing upon the market are reported reduced.

Wheat, including flour, exports for the week ending Aug. 11 aggregate 1,284,000 bushels, against 843,000 this week last year; from July 1 to date exports aggregate 7,847,000 bushels, against 18,490,000 last year. Corn exports for the week aggregate 655,000 bushels, against 707,000 a year ago; from July 1 to date exports of corn aggregate 3,279,000 bushels, against 6,940,000 last year.

DUN'S REPORT. New York, Aug. 12.—R. G. Dun's trade review says: Moderate improvement in midsummer means more than equivalent increase at any other season and better trade reported during the past week is consequently most encouraging. Dispatches from all parts of the country are by no means uniform, in some cases the outlook showing no change, while at a few points there have been setbacks, but on the whole progress is unmistakable. Two labor controversies are particularly harmful, but others have been settled, the Fall River strike is partly broken and several threatened difficulties have been averted. Despite some injury to spring wheat, the agricultural prospect is very bright, while higher prices promise to neutralize the effect of loss in quantity as occurred. Interior buyers have placed liberal fall orders in leading dry goods markets and confidence in large buying trade is becoming general. The approaching presidential election is viewed with more equanimity than any other contest of recent years, both in financial and industrial circles. Net earnings of railways are making favorable comparisons, owing to economies made possible by preceding years of liberal expenditures and even gross earnings for July are but 3.4 per cent smaller than in 1903. Agricultural implement works are preparing for brisk fall trade, railways are placing more orders for equipment and better tonnage of structural steel is moving.

Failures this week were 222 in the United States, against 174 last year.

FATAL EPIDEMIC. Macon, Mo., Aug. 12.—A fatal epidemic has broken out in the German settlement of Weln, a few miles south of New Cambria. Within a month there has been 12 deaths, 25 per cent of the cases. Physicians call it a tropical malady. Death occurs within four or five days after the patient is attacked. In the collapse following infection the disease resembles Asiatic cholera.

THE I. T. U. St. Louis, Aug. 12.—The convention of the International Typographical union to day concurred in the report of the committee on the eight-hour law day, which advocated adoption of the eight-hour law and fixed Jan. 1, 1906, as the time when such law should be effective or a strike declared. The question was left to subordinate unions for final decision on the referendum vote.

President Gives Reception to Teachers of Porto Rico—Other Items.

Representative James Tawney of Minnesota, manager of the speakers' bureau at the Republican headquarters at Chicago, to day discussed with President Roosevelt general work, particularly as to the west. Tawney says it probably will be a month before the speaking campaign opens in the west. It is likely fewer speakers will be on the stump for the national committee in the west this year than in the campaigns of 1896 or 1900. In the campaign of 1900 about 1,500 speakers were directed from the western headquarters. An earnest and aggressive campaign, however, is to be conducted in every western state.

President Roosevelt to day tendered a reception and delivered a brief speech to five hundred school teachers of Porto Rico, who have been in this country several weeks attending normal schools. The reception took place in the east room of the white house. The president said:

"It is my earnest wish, and it was the wish of my learned predecessor, and it is the wish of the people of the United States that only unimpaired good shall come to the people of Porto Rico because of their connection with this country."

"I greet you with peculiar pleasure and interest because this body and those like you who are engaged in the work of education in Porto Rico are doing good work which more than any other is vital to the future of the island. We must have education in its broadest and deepest sense in order to fit any people to do its duty among free people of progress in the world. And I trust that you teachers engaged in preparing the next generation to do its work realize fully the weight of responsibility resting upon you. Accordingly as you and your colleagues do your work well or ill, it depends on how the next generation of Porto Ricans shall do their work in the world."

"I am glad to see you because of the very fact that there is this responsibility upon you and I hail you because you represent that great body of your fellows in Porto Rico who are making every effort to do the best work of which they are capable in the world."

Washington, Aug. 12.—The Japanese legation has received a revised list of casualties on the Japanese side from the battle of Ching Jiu March 28 up to and including the battle of Yang Tse Ling Aug. 1, as follows: Killed, officers 54, men 1,569; wounded, officers 36, men 6,330, to which are added estimated casualties for some engagements amounting to 4,000, making a grand total of 12,655.

MIRACULOUS ESCAPE

Captive Balloon Bursts 500 Feet Above Ground, But no Occupants Injured.

St. Louis, Aug. 12.—The big captive balloon at the aeronautic course burst today five hundred feet above the ground. Although a hole two feet long was torn in the silk covering and gas escaped with a rush, two men in the car escaped injury, as the bag formed a parachute.

LOST TO BRYAN. New Haven, Conn., Aug. 12.—The supreme court, which has been considering W. J. Bryan's appeal from the lower court decision which excluded the "sealed letter" in the Bennett will case, adjourned to night, having found no error. By this decision Bryan loses the \$50,000 bequest.

A BRITISH SUBJECT. Tangier, Aug. 12.—Hamel Jai Ya, principal secretary to El Menebhi, Moroccan minister of war, has been arrested and imprisoned and his goods confiscated under orders of the sultan. Jai Ya is a British subject and European residents are indignant at the arrest. They say life and property, especially where British subjects are concerned, are unsafe. The British legation has strongly protested to the Moroccan government's course, but so far the protest has been ignored.

STOCK YARDS STRIKE UNCHANGED

Chicago, Aug. 12.—Mayor Harrison to morrow will be asked to do what he can toward settling the stock yards strike. At a meeting of retail dealers this afternoon a committee was appointed to wait on the mayor to morrow. Representatives of the strikers were at the meeting and expressed themselves as satisfied with the plan to ask the mayor's assistance. Cornelius Shea, president of the International Brotherhood of Teamsters, declared in an interview that there will be no more sympathetic strikes of members of his union.

TROLLEY FATALITY. Defiance, Ohio, Aug. 12.—Mrs. Helen Reinsewetter, of Cleveland, and two young sons and Rev. M. Guede, of Defiance, were killed and three others badly injured in a trolley wreck at the Baltimore & Ohio crossing here to day.

THE CHEFOO ENCOUNTER

STORY OF THE DESPERATE AFFAIR

One of the Most Stirring Events of the Eastern War and One That May Lead to Serious Consequences.

Chefoo, Aug. 12.—Captain Shestakovsky of the Reshitel, who was wounded in the leg by a bullet, and thirty-five or more of his men were saved by boats from the Chinese cruiser Haiyung. Interviews with Admiral Sah and Captain Ching of the Haiyung indicate that when the Reshitel Japanese torpedo boat destroyer, towing the Reshitel, departed to the northward a second Japanese destroyer steered her course past the flagship and the cruiser Hatachi, which cleared for action and signalled to the destroyer to stop. This was done, Admiral Sah informed the commander of the Japanese destroyer that the Reshitel must be returned, as neutrality had been flagrantly violated. To this the commander of the second destroyer replied that he would overtake the first destroyer and return to Chefoo. Admiral Sah accepted the word of the Japanese commander and allowed him to depart. The Chinese admiral is deeply chagrined at the occurrence and is ill as a result. He has turned command of the squadron over to Captain Ching.

Captain Ching says when the Japanese destroyers entered Chefoo he sent an officer on board and assured Commander Fujimoto that the Reshitel was disabled and that officers and crew had signed parole. Later the admiral followed the messenger and personally repeated the information, whereupon Commander Fujimoto said he had no design on the Reshitel. The admiral next sent an officer in a small boat to the Reshitel, which was near the Reshitel, to watch developments.

Captain Shestakovsky, feeling insecure, requested that his ammunition and one torpedo be returned to him or a Chinese cruiser prepare to guard him. To this the Chinese officer of the lightship replied that he had been ordered merely to report new developments. Accordingly Captain Shestakovsky assembled the crew and addressed them, saying that an attack was possible. All the men of the Reshitel slept that night on deck with life preservers under their heads.

When a lieutenant from one of the Japanese destroyers boarded the Reshitel at 3 o'clock in the morning the crew which brought him with bayonets fixed to rifles in hands followed the officer. Captain Shestakovsky protested, saying: "I am unable to resist, but this is a breach of neutrality and courtesy."

Captain Shestakovsky then secretly commanded one of his lieutenants to prepare gunpowder with which to blow up the Russian destroyer. To gain time necessary to make ready for this step Shestakovsky argued international law with the Japanese officers, whose reply to all contentions of the Russian was: "Come to the open sea and fight or prepare to be towed out."

In the meanwhile a command was issued quietly to the Russian sailors to resist the Japanese with their fists in a manner which would be shown them by the captain. Shestakovsky said: "The Japanese officer told me to surrender and that as a prisoner my life would be spared. This insult so stung me that I struck the Japanese before I intended to. I was afraid that the explosive to blow up my vessel had not been prepared. My blow knocked the lieutenant overboard. In going he dragged me with him. He fell into his small boat alongside, while I fell into the water. I clung to his throat and pummeled him until my hold was broken."

The crew of the Reshitel meanwhile had begun fighting with the Japanese sailors, who used rifles and bayonets. Fighting men scuffled over the deck and fell overboard in struggling pairs, after the example accidentally set by Captain Shestakovsky, who, seeing men fighting on the deck of the destroyer, attempted to climb back on board and command them. He was shot at four times and while in the water he received a deep wound in the right leg.

There were fifty-one Russian officers and men on board the Reshitel and thirty-five have been accounted for. A number of Japanese attackers are also believed to have perished.

Captain Shestakovsky swam toward a junk, from which he was driven by blows with a boathook. He remained in the water fifty minutes and finally was picked up by a boat sent out by the Haiyung. Captain Ching cared for the Russian captain and two lieutenants in his own cabin. Russian sailors rescued by boats from the Haiyung exchanged drenched clothing for uniforms of Chinese sailors, in which they were brought ashore to day by the Russian consulate.

Before leaving Chefoo Commander Fujimoto sent an outline report of occurrences of the night to the Japanese consul. This report differs from that sent in by the Associated Press only in that it does not say that the Japanese fired at the Russian sailors while they were in the water.

A METEOR STRIKES

Near Concord, Pa., and a Violent Explosion Follows the Impact.

Meadville, Pa., Aug. 12.—A meteor of large aerolite, taking a northerly direction, struck the earth somewhere near Concord, thirty-five miles east of here on the Erie railroad, just after 2 o'clock this morning. A terrific explosion accompanied the impact, followed by high wind lasting fifteen seconds. Erie trainmen from Salamanca to Union City, eighty miles saw the great light, which lasted from five to ten seconds, and are inquiring about the explosion, which shook buildings at Titusville, fully twenty miles away.

PARAGUAYAN REVOLUTION. Buenos Ayres, Aug. 12.—Paraguayan insurgents have captured the ports of Itapúa, Villa Pillar and Concepcion and the steamer Villa Rica, which had on board the minister of Interior. The minister escaped.

A number of Paraguayans have been killed or wounded in a combat between a revolutionary vessel and a steamer commanded by the government. The government vessel was captured and is now manned by revolutionists. The acting minister of war, who was on board the steamer, jumped overboard, but was taken prisoner before reaching the bank.

The revolutionists have seized Humaita, Villa del Pilar and Villa Frances. Tranquility prevails in Asuncion and the government is preparing to resist the impending attack on the capital. Many revolutionists who entered Argentine territory unarmed are now joining the insurgents. It is expected the insurrection will be successful.

POLITICAL.

President to Take no Part in the Campaign—The Peoples Party.

Joliet, Aug. 12.—The convention of the People's party of Illinois has been called to meet at Springfield Aug. 15. New York, Aug. 12.—It was announced from headquarters of the People's party to day that a full electoral and state ticket will be placed in the field in New York.

New York, Aug. 12.—Chairman Cortelyou to day said President Roosevelt would not make any political speeches this year. Beyond the speech to the notification committee and letter of acceptance, which is yet to be published, the president will not take any public part in the campaign. This is in line with the course pursued by President McKinley in 1900. Roosevelt has placed the political campaign in the hands of Cortelyou and while there may be consultations between them, it is understood that the national chairman is in full control and that in all political matters he takes full responsibility.

New York, Aug. 12.—Daniel McConville, of Ohio, has been selected to manage the speakers' bureau for the Democratic committee. He held a similar position during the campaign of 1896 and 1900.

Westville Is a Typical Mining Town—School Teacher Married and Had to Resign.

Westville—This city of 4000 inhabitants has thirty-one saloons and two churches, one Catholic and one Protestant—and the latter congregation meets but once a fortnight for worship. The parish priest speaks seven languages and is still unable to make all of his congregation understand him. There are Poles, Italians, Spaniards, Portuguese, Irish, English, Germans, Belgians, French, Mexicans, Africans, Russians, Lithuanians, Danes, Swedes and Norwegians in the city, besides a few Americans. It is a mining town pure and simple, and 3000 men and boys are employed in the seven mines in the vicinity. Over two million tons of coal are shipped each year, and the man who owns the bigger share of the property began to dig coal with a pick from what is known as a "strip bank" less than forty-five years ago. To day he is worth at least \$4,000,000. Michael Kelly, millionaire mine owner, laid the foundation of his vast fortune with a pick. He came to Danville a poor, illiterate Irishman, unable to write his own name. To day he lives in a fine home in one of the best streets of the city, and is perhaps the richest man in Danville.

Winchester—C. M. Jencks, state factory inspector, was here this week and on Wednesday had George E. Goodhead and Fred E. Switzer arrested for violating the child labor law by employing boys under 16 years of age without a certificate from their parents. Mr. Goodhead is manager of the Goodhead Telephone company, and the boy working for him was an apprentice. Mr. Switzer is proprietor of the Winchester Steam laundry and the boy employed by him drove the laundry wagon. Both parties pleaded guilty and were each fined \$5 and costs. It was no intent on their part to willfully violate the law and was done through not keeping posted. Winchester people think Mr. Jencks was overzealous.

Chicago—The sanitary board will lower the government dams in the Illinois river at Lagrange and Kampsville two feet. This, it is thought, will prevent the annual overflow which floods 400,000 acres of bottom land above and below Lagrange. The dams were built to keep the water navigable. To investigate the feasibility of lowering the dams, Trustees Carter, Braden, Clodt, Jones and Smith left Chicago Thursday night. They will journey down the canal to St. Louis.

Virginia—Moses F. Vaughn, aged 60 years, died at his home in this city Thursday morning. Mr. Vaughn is survived by his widow and one daughter, Mrs. Thomas Johnson, of Springfield. He had been in the livery business in this city for many years, retiring a few years ago on account of failing health. Funeral services were held at the residence Friday afternoon at 2 o'clock. Rev. Mr. Hart, of the Baptist church, officiating, and interment was in Walnut Ridge cemetery.

Beardstown—On account of her marriage, Mrs. E. A. Salter has been asked by the school board to resign her place as teacher in the public schools. Mrs. Salter was formerly Miss Bertha Dickens and was married since being awarded the school.

She indicated her willingness to give up her school if the officials desired.

Virginia—Some one threw half a brick through a plate glass window at the Enquirer office Wednesday night. The supposition is that it was done by an enemy of Mayor Illwaco, who is one of the owners of the paper.

UNION GIANTS WIN

Interesting Ball Game at West Side Park Friday Afternoon—Large Crowd Present.

Before one of the largest crowds that has witnessed a base ball game this season the local team and the Union Giants, of Chicago, fought for nine innings Friday afternoon, and when the smoke of battle had cleared away the visitors were found to be three runs to the good.

It was an interesting contest from start to finish and both teams put up a fine article of ball. There were four innings in which neither side scored.

The home team took two in the third on a very timely two-bagger by Livingston, which brought in a runner on first and second bases, respectively. The hitter died on third.

Neither team scored until the sixth inning, when the visitors fell onto Norris, whose support also made two bad fielding errors, and the result was three runners crossed the plate. The local team tied the score in the seventh and were landing on Mathews in fine style, when he was taken out of the box and Davis substituted. The new pitcher stopped the run getting and in the first half of the eighth the visitors made three more runs, which gave them a lead that was never overcome.

The feature of the game was the fine work of Norris, who had perfect control of the ball and sent them over the slab in splendid fashion. In addition to striking out six men he fielded his position perfectly and had five assists and two put outs to his credit. He made one of the four hits and was one of the three men to cross the plate.

The visitors are a lively bunch and put up a good, stiff game. The spectators were enthusiastic and players of both teams received hearty applause from their friends.

RAILROAD NEWS NOTES

General Manager Goodnow of the Alton Here Friday—Other Items of Interest.

R. R. Churchill, of St. Louis, traveling passenger agent of the Illinois Central, was in the city Friday on business with railroad men.

S. S. Smith, cabinet maker of the coach department of the shops, left Friday to visit his son in Peoria.

General Manager C. A. Goodnow, of the Alton, arrived in the city Friday morning on a special train of two coaches in charge of Conductor Baker and pulled by Engineer William Fitzgerald with engine 188. In the party besides Mr. Goodnow were C. P. Bemis, trainmaster; W. B. Causey, engineer of maintenance of way, and E. Sweeney, roadmaster. O. L. Hill, local agent, was with the party during their stay here. The train arrived about 8 o'clock and a general examination of the yards and stations were made. Later the observation car was backed down to the College avenue property, and the plans for the new station and sidings fully discussed. After about a two hours' stop the special left for Bloomington. Some exceedingly fast time was made between here and Tallula, the speed frequently reaching sixty miles an hour and more. This visit of the higher officials adds confirmation to the articles already published about the Alton changes. R. A. Cook, assistant chief engineer, with his train, was expected in the city Friday to do some additional surveying, but was unable to be here. It is probable he will be here to day.

One of the most sweeping orders for improvements ever given by the Chicago & Alton railway is about to be given, and will involve a vast outlay in capital and labor. Estimates are now being prepared for the equipment of the entire Alton system with pipe line crossover switches, a few having been put in and found eminently satisfactory. The new switch will affect every crossover track on the entire line, and will be the preventative of many minor accidents, as well as destructive wrecks. At present when a train wishes to use a crossover it is necessary to throw two switches several hundred feet apart. If by any chance the switchman fails to throw the second switch in time, or the engineer fails to stop, or cannot control the train, the result is a derailment. With the new switch the throwing of one split rail also operates the second switch by a system of pipe connections, and the two switches are thrown simultaneously. But one switch standard and one semaphore are used, economy takes rank with safety in the adoption of the new switch.

Conductor George Chadden is home from New York city and has reported for work. He will resume north end freight and extra passenger.

The C. & A. wrecking crew left Bloomington Thursday morning for Carlinville, taking with them several car loads of freight car trucks, which were left after the box sections were burned. These trucks will be strewn along the Alton's right of way, where the interurban railway is trying to effect a crossing of the Alton tracks. The Alton wishes an overhead or an underneath crossing, but the interurban, owing to the lesser expense, wishes to cross it grade. In order to prevent the interurban from crossing clandestinely, the Alton has dumped several box cars at that point and yesterday the trucks were distributed in addition. The outfit was taken down by Conductor Kerch with the 175, Brinkworth ahead.

Engineer Prossel, with the 500, made a fine run on No. 20 from Roadhouse Thursday. He left twenty-seven minutes late, lost five minutes at Jacksonville and also five minutes at Tallula, picking up the private car, 502, of Superintendent Ryder, who had come up from Roadhouse on the local, and yet came into Bloomington but nine minutes late.

BETTER THAN SPANKING.

Spanking does not cure children of urticaria, it only irritates the system and makes the child more susceptible to the disease. There is a constitutional cause for this. Mrs. M. Summers, Box 405, Notre Dame, Ind., will send her home treatment to any mother who asks no money. Write her today if your children trouble you in this way. Don't blame the child. The chances are it can't help it.

Care of Mirrors.—Frequent washing with soap will dim the surface of a mirror. An occasional use of alcohol is recommended, but for frequent washing damp newspaper, with a polishing with chamois skin, will keep mirrors and table glassware in excellent condition.

Homemade Gold Paint.—Buy 2 cents' worth of rubber chewing gum and dissolve it in about half a pint of benzine, then add as much gold bronze powder until it covers properly, and he or she will have a desirable and bright gold paint.

Only \$2.95 to ST. LOUIS and return DAILY DURING AUGUST VIA THE ALTON. Seven day limit. Now is the time to visit the GREAT-EST FAIR ON EARTH.

FACTS ABOUT WEEDS

Are Divided Into Three Classes—How to Deal With Them Effectively.

All weeds come into three classes: Annuals, biennials and perennials. In order to fight weeds most successfully one must have in mind the differences between the three classes and between the specific plants in each class.

Annual weeds are those which grow from seed each year or season and die soon after ripening seeds. The Russian thistle, purslane and foxtail are cited as examples.

Biennial weeds are those which grow from seeds, but which do not produce seed until the second season. Wild carrot, wild parsnip, burdock, sweet clover and mullein belong to this class.

Perennial weeds are those which continue to live year after year. They may start from seed or from underground stems. The hardy, woody-stemmed weeds, as sassafras, briars and roses are perennials.

Generally speaking, one may rid land of annual and biennial weeds by preventing them from maturing seed. Persistent cultivation, mowing and close cutting with a hoe will usually subdue weeds of these two classes in time.

It is harder to deal with perennials. Most of them must be cut off at the crown often enough to starve the underground parts—for the roots can not continue to live always without the stem. Where the area is small, salt, kerosene, gasoline or sulphuric acid are sometimes used to destroy the plants. In the worst cases of perennials it may be very difficult to drive them out entirely, especially from fence rows and roadsides, but there are few weeds that cannot be subdued by constant effort.

In dealing with weeds one of two things are important to remember. One is the vitality of seeds and another is the spreading of many of the perennials by root cuttings.

The seed of chess or cheat will lie dormant in the soil for years waiting for a favorable time to sprout. After a long time it may spring up in a field where nothing but clean wheat has been sown and create the erroneous belief that some of the wheat is turned to cheat. The seed of stamp weed and of rag weed oftentimes do not sprout till land is sown to grain or planted to corn.

Seeds may be buried by plowing and lie in the ground for several years until brought near the surface by cultivation, where they will germinate and grow. Seeds have sprouted from soil dug out of ditches or old cellars, after years of lying dormant. It is stated by one authority that seeds of shepherd's purse, peppercorn, mayweed, mullein and curled dock were able to sprout after being buried in the soil fifteen years. All this means that one must be constantly on the watch, not concluding that because weeds fail to appear for one or two seasons they are necessarily eradicated.

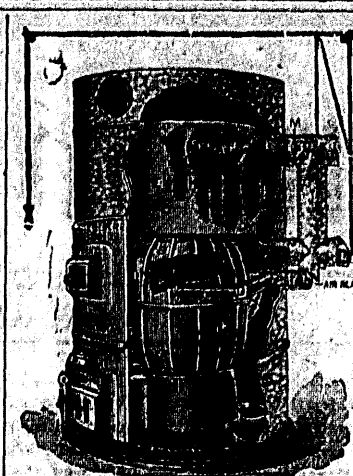

Another important thing to remember is the fact that it does more harm than good to cut the roots of some weeds, because every small piece of root cut off may produce a new plant. For instance, one would make a mistake if he tried to kill out the Canada thistle or the morning glory by cutting out the roots. From what our correspondent says about plowing and harrowing his infested land, he may be making the mistake of distributing the pieces of root, thus really aiding the distribution of the weed he wishes to subdue.—Prof. Albert N. Hume, Illinois College of Agriculture.

READ THIS:
Jacksonville, Ill., Aug. 24, 1931.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all things else put together and all other remedies. I have persuaded many of my friends to try it.

MASTER HORSE-SHOERS MEET

Pleasant Social and Business Meeting Held at Red Men's Hall Friday Evening—Enjoyable Gathering.

The local lodge of the Master Horse Shoers' national association, No. 390, held a most delightful social Friday evening in the Red Men's hall on South Sandy street. The master horse shoers, the journeymen horse shoers of the city and county and their wives and lady friends had been invited to be present and a large company assembled and spent a very enjoyable evening.

W. H. Anderson, president of the local lodge, presided at a brief business meeting, which was held, and stated the object of the gathering, which was the first of the kind to be held in this city.

Mr. Anderson stated that it was a custom of the national association to have one holiday each year for the pleasure of the members of the order and to close the shops on that day. The members felt, however, that as the anniversary fell this year on Saturday that great inconvenience would result to customers should such a course be followed. Instead a social gathering for Friday evening was decided upon. Mr. Anderson stated that the organization had been instituted for the social and financial benefit of the members.

At the conclusion of the introductory remarks of the chairman, short talks were made by G. V. Skinner, Cupid Mosley, Harry Hopper, Sr., P. J. Meany, S. Ball and H. H. Bancroft.

During the evening mandolin music was furnished by Carl Franz and Edward Swaberg, which proved a feature of the entertainment.

After the business meeting those present mingled socially and enjoyed dancing until after the midnight hour. Frappe was served during the evening and about 11 o'clock ice cream and cake were served.

The occasion was a success in every particular and has been the means of establishing pleasant social as well as business relations between the members of the order and their families. It is planned to make the celebration an annual affair.

The officers of the Master Horse Shoers' association are:

President—W. H. Anderson.

Vice president—G. V. Skinner.

Secretary—James Seaver.

Treasurer—Fred McDougall.

Corresponding secretary—John Hall.

Sergeant at arms—Harry Hopper.

Trustees—A. W. Becker, John R. Jameson and Cupid Mosley.

DEATH RECORD

BROWN.

Benjamin F. Brown was born May 23, 1880, at Salem, N. H. He was a shoemaker by trade and was for many years a resident of this city, where he had been for a number of years engaged in the insurance business. He was married twice, his first wife dying many years ago. He was married on June 22 of this year to Mrs. Emma Rucker, who had nursed him through a long illness of tuberculosis up to the time of his death at 1:50 o'clock Friday morning. He is also survived by one sister, Mrs. Sarah D. Gardner, of Haverhill, Mass.

He enlisted in the Twenty-eighth regiment, Illinois volunteer infantry, as a private, Aug. 2, 1901, and was discharged on account of disability Nov. 6, 1902. He was an active member of Matt Starr post, G. A. R., of this city, and in 1907 was commander of that organization.

Mr. Brown had been a member of Urania lodge No. 243, I. O. O. F., from Oct. 26, 1874, to the time of his death—almost thirty years. He was also a member of Ridgely encampment No. 9.

The remains, in pursuance to the request of Mr. Brown, were taken to the Anderson undertaking establishment and the funeral will be conducted from that place this afternoon at 2 o'clock in charge of the Odd Fellows and the G. A. R. The remains will be taken to Jacksonville cemetery, where they will be laid to rest according to the ritual of the Odd Fellows.

LAWSON.

Mrs. Sarah E. Lawson passed away at her home on the corner of Michigan avenue and South Diamond street Friday afternoon at 12:27 o'clock, after a brief illness.

Deceased was born in Kentucky in 1817 and in 1827 removed with her parents to Scott county, where she was married about sixty-seven years ago to Elijah Lawson. She made her home in Scott county until about ten years ago, since which time she has resided in this city. She was a consistent member of the Christian church for fifty-five years.

Deceased is survived by her husband, one daughter, Mrs. Anna M. Landreth, of Scott county; five grandchildren, sixteen great grandchildren and one great great-grandchild.

Funeral services will be held Sunday afternoon at 3 o'clock at the family home, in charge of Rev. R. F. Thripp. Interment will be in Diamond Grove cemetery.

SEEGAR.

Word was received at 7 o'clock Friday evening of the death of G. W. Seegar late Friday afternoon, in Decatur. He had been sick for some time, but it was not thought that at any time his condition was serious.

Deceased was born in 1805 in this city, which had always been his home until twelve years ago, when he went to Decatur, at which place he has since resided.

While a resident of Jacksonville he conducted a restaurant on East State street and was also employed for some time at the Dunlap hotel.

While in Decatur he was employed with Bradley Bros., and was always known to be a competent man. He was well liked by all his acquaintances.

He is survived by his father, J. W. Seegar, of Decatur; one sister, Mrs. Walter Hardy, of this county; two brothers, Walter and Fred, of Decatur, and two brothers residing here, Arthur and John Seegar.

Mr. and Mrs. Arthur Seegar left on the evening train for Decatur.

PIERCE.

Mrs. Tillie Pierce, widow of the late William Pierce, of Manchester, died at Passavant hospital Friday morning at 7 o'clock, at the age of 45 years. The remains were taken to Manchester Friday afternoon.

Funeral services will be held in Whitehall this morning at 10 o'clock.

EVENING COMPANY.

Mr. and Mrs. Charles Capps were host and hostess at a delightful evening company Friday. The company was given in honor of a number of former Jacksonville residents who are visiting in the city, and was informal in character. The guests mingled socially in a pleasant manner and the evening was one of thorough enjoyment. Delicate refreshments were served.

TIT FOR TAT.

The robbery of world's fair passengers twenty miles out of Chicago indicates the determination of Chicagoans not to let any money get to St. Louis, if they can help it.—St. Louis Post-Dispatch.

Note the glaring injustice of this. The passengers were mainly Chicago people on their way to the fair to spend money, while the robbers, so far as anybody knows to the contrary, may have been despairing concessionaires from St. Louis.—Chicago Tribune.

NOTICE TO MERCHANTS.

Merchants package claim checks are on sale at Wabash baggage room. No packages will be accepted at baggage room or taken care of at station unless same is covered by Wabash merchants check.

FIRE DESTROYS MUCH PROPERTY

BUILDINGS ON REYNOLD'S FARM BURNED

Origin Unknown—Discovered by Hired Man Early This Morning—Loss Will Be Heavy.

Fire broke out in the big cattle barn on the farm belonging to Ralph Reynolds, about four miles southeast of the city, Saturday morning about 12:30 o'clock. It was discovered by the hired man, Sam Johnson, who was on his way home from Jacksonville.

There were about forty tons of hay in the barn at the time the fire started and a car load of fat hogs were also in the barn. Soon the flames spread to the horse barn and buggy sheds near by and but for the persistent efforts of Mr. Reynolds would also have been destroyed by the flames. The buildings burned were a total loss, but with the exception of the hay and a number of hogs, the other contents, harness, etc., were saved. So far as could be learned, no insurance was carried on either buildings or contents. The barn contained twenty acres of hay just cut and stored, with a large amount of hay left over from last year. The origin of the fire is unknown.

As soon as Johnson discovered the fire he began to drive the hogs out of the barn and was successful in getting out the major part of them, when falling timbers made his work perilous and he was forced to desist. The horses had been turned out for the night and were not in danger.

Johnson next turned his attention to tearing down the fences and small buildings near the barn, but his efforts in this direction, while they had the effect of checking the ravages of the flames, did not prevent their spread and the horse barn was soon burning.

Meanwhile Mrs. Reynolds had summoned the neighbors by telephone and they were doing their best to save the house, upon the roof of which large sparks were constantly falling. A line was formed and a continual stream of buckets of water was passed, wetting every part of the roof.

Mr. Reynolds left for the Indianapolis market with a car load of hogs the middle of the week.

While the fire was raging about the barns Mrs. Reynolds made every preparation to vacate the house should it take fire. Many of the smaller articles were removed from the upstairs rooms and carried into the yard.

The neighbors who were quick to respond were Edward Reynolds, William Brogdon, Gilbert Brogdon, Robert Book and his hired man, George Glover and Albert Hembrough. These men fought the flames with effective methods and as a result of their combined effort the residence property was saved.

The Reynolds farm is situated on the road that runs east of the St. Louis road about four miles south of the city. The house is about three-quarters of a mile down the road and sets back from the road about seventy-five feet. The cattle barn was about sixty feet southwest of the house and the horse barn was situated close by. The barns were big two-story structures, the cattle barn being 100x50 feet and the horse barn being 80x30 feet.

The fire lighted up the heavens for miles around and the sound of cracking timbers could be plainly heard at Morgan lake. From Central park the light of the flames was plainly seen. Some one telephoned in an alarm to the fire department saying that the fire was on South East street. The fireman made the run to the city limits and finding that the conflagration was far out in the country turned back. Later Chief LaBoitoux received a telephone message from Mr. Reynolds stating that the fire was on their farm.

At 2:45 this morning it was learned that only a few of the hogs in the barn were saved and that at least fifty of the seventy-five head, known to have been there, were consumed by the flames. Many of the implements were also lost and the scales nearby were also burned.

While it is not possible to estimate the loss, it will be somewhere between \$1000 and \$2000.

The flames were gotten under control about 2:30 this morning and all danger to the residence seemed past.

All ladies novelties are reduced in price for the month of August at the Illinois millinery house.

MANY PLAYED GOLF FRIDAY

Hard Ball Contest Proves of Unusual Interest—Several Match Games Are Being Arranged.

The hard ball contest scheduled for Friday afternoon was unusually successful. Twenty-three contestants squared themselves at the first tee and lambasted the balls to their heart's content. It was the first experience many of them have had with a slow ball and a few players claimed the balls made very little difference in their play.

The first prize for the best medal score was claimed by Dr. George Dinsmore, with a 47. After getting into all the trouble there is on the course, Lloyd Smith, Sr., was compelled to turn in the highest score, a 68, and thereby fell heir to twenty-three more or less disfigured balls.

The average score of all participants was 57, and this being the score of H. L. Doan, he won the score book.

The players and their scores are as follows:

Dinsmore	47
Scurluck	49
Elliott	49
Ledford	50
Hockenhuil	50
Dr. Capps	52
L. Smith, Jr.	53
Dr. Haingrove	55
G. B. Andre	56
Baldwin	56
H. L. Doan	57
W. E. Killen	58
Lott	58
Byrns	58
Sanders	59
Wehl	59
T. Alexander	60
Earl Vickery	62
H. M. Andre	63
Melton	63
Phelps	63
Worthington	65
L. Smith, Sr.	68

Frank H. Whitney, of the Quincy Golf club, was a visitor on the links Friday morning.

Dr. J. A. Capps, of Chicago, has been a guest of the club for several days. He plays a good, stiff game.

The greens committee have under consideration a big general tournament for local players, to take place about Oct. 1, when the grounds are at their best. It is intended that the prizes shall be of sufficient number and the contests so arranged that everyone will have a chance to make a showing before the tournament is over.

Arrangements are being made for the team to play match games at Quincy, Hannibal, Mo., Keokuk, Iowa, and St. Louis in the near future. These cities are also expected to play return matches on the local grounds before the season is over.

About Worth Skirts

It might not be amiss to add a few words about a "lady-like and lovely" skirt, for the knack of properly holding up a skirt may be wasted on an unsightly shapeless garment.

By reason of stunningly smart conceptions on correct and graceful lines, the Worth skirt has stood securely in the very first rank. To wear a worth skirt is to be certain that you have the correct vogue.

Plaited skirts will be the most popular of all designs the coming season. Although plaits are not new by any means, yet the new arrangements of them contrived by Worth reflect the fascination of harmony and proportion—a joy of viewing things beautiful is in the air.

Style is the soul of the Worth skirt. Its fit is ideal, yielding a wealth of comfort to its wearer that is immeasurable. Added to these qualities is the modest price, making the Worth Skirt supremely a skirt of worth—the skirt for women in real life.

If you are not a Worth Skirt wearer, you should get into that happy habit its excellent wearing qualities, as well as the sense of satisfaction that your skirt is trim and will afford a deal of delight long after the price paid is forgotten.
